## **DETAILED ACTION**

### ***Response to Arguments***

1. Applicant's arguments, filed 10/31/2005, with respect to the rejection(s) of claims 1 and 2 under 35 USC § 102(e) have been fully considered and are persuasive. Therefore, the rejection has been withdrawn. However, upon further consideration, a new ground(s) of rejection is made in view of Sullivan (US 5,999,131).

### ***Claim Rejections - 35 USC § 102***

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

3. Claims 1 and 2 are rejected under 35 U.S.C. 102(e) as being anticipated by Sullivan (US 5,999,131).

- With regard claim 1, Sullivan discloses a method of multipath combining, comprising:

(a) forming at least one matrix of covariances of multipath inputs (column 6, lines 6-14) from a single receiver antenna (Fig.2 element 22 and column 5, lines 58-60);

(b) finding an eigenvector of said matrix (column 6, lines 12-20); and

(c) combining said multipath inputs (Fig.2 element 24 and column 5 lines 46-49) relatively weighted according to the components of said eigenvector (column 6 lines 6-20).

- With regard claim 2, Sullivan further discloses wherein (a) said eigenvector is associated with a maximal eigenvalue of said matrix (column 3 lines 30-38).

### ***Allowable Subject Matter***

4. Claims 4-9 are allowed.
5. Claim 3 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
6. The following is an examiner's statement of reasons for allowance.
  - The examiner's statement of reasons for allowance has been addressed in the last Final Office action # 05242005, dated 06/02/2005.
